Paper Boat Systems

Commercial Product Price List 2026

This price list is for core Paper Boat Systems products and subcomponents that can be used as individual products or as part of an integrated platform. In addition to platform and individual products, there are optional marketplace items that provide enhanced capabilities to the platform and product line, however, are not stand-alone solutions. All products and components listed below require a licensing agreement and are provided with a service agreement, support agreement and purchase order and/or statement of work. All prices listed are for a single installation and may vary based on multiple installations and specific cloud hosting requirements.
